

FAMILY TREE NUTS ANCESTOR HIGHLIGHT SHEET

CLIENT: JOHN DOE

DATE: APRIL 2023

GENEALOGIST: COL. RUSS CARSON, JR.

This report is part of the client John Doe's "Explorers Package" performed by Family Tree Nuts and is accompanied with a pedigree chart and an ancestor report. It is separated into four sections for each of the clients grandparents. Under each section is listed ancestors on that particular branch and an interesting clue about them that has been discovered. It should be noted that these clues have not been thoroughly verified at this time, and while most of what is listed is likely accurate, some may not be. The purpose of this ancestor highlight sheet is to give the client additional information about their ancestors found in the Explorers Package and to help them prioritize which branches that they may want to expand their project in a Pioneer or Settlers Package. The clues reported on this sheet are thoroughly verified and reported on in the Pioneer or Settlers Package.
